SPA SHIELD BY LEMI

Now more than ever we have in mind how much a constantly sanitized and disinfected Spa environment is fundamental for the health and safety of both those who work there and guests who want to enjoy the Spa experience. The latter need to be in a place that conveys a sense of security and protection to them, that's why it is important to keep spaces and rooms visibly clean, ventilated and bright, since not only will they be more appreciated aesthetically but they will contribute to making guests' stay in the Spa an experience of total relax.

*For this reason, LEMI wanted to make **SPA SHIELD** available to support the work of the therapists, giving them the opportunity to create a safe space that allows them to perform freely, while making the client feel comfortable during the treatment within the cabin.*
