

Anatomical Charts

From basic structures to complex organs –
the anatomical Charts by Erler-Zimmer illustrate
medical concepts precisely and didactically.

Discover the fascinating world of medicine with anatomical Charts by Erler-Zimmer

With the educational charts and anatomical Charts by Erler-Zimmer, you enter a world where human anatomy comes to life. These detailed illustrations are not only visually appealing but also didactically designed to foster a deep understanding of medical structures. Teachers, lecturers, professors, trainees, and students will find in our Charts not just teaching aids, but also inspiration for a comprehensive medical education.

From basic structures to complex organs and tissue representations, our Charts offer a wide range of applications in classrooms, skills labs, and university courses. The level of detail in each illustration allows for the precise communication of medical contexts. Regular updates ensure that you are always up to date with the latest advancements in medical research and technology.

The didactic design of our Charts, featuring clear labeling and color highlighting, supports an effective learning process. Whether for group teaching, self-study, or practical exercises, our anatomical Charts are versatile tools for creating a dynamic and inspiring learning environment. Use this essential resource to enhance your teaching, deepen students' understanding, and promote a comprehensive education in medicine.

Bring Medical Knowledge to Life with our premium anatomical Charts

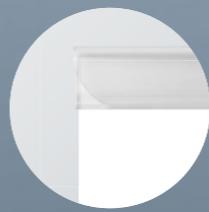

Our informative anatomical Charts, available in two sizes, provide detailed medical knowledge and are a real eye-catcher in any training facility or practice. The 50 x 70 cm format is printed on high-quality art paper and comes with two plastic mounting rails and practical hanging loops. The Charts in the 70 x 100 cm size are made from durable plastic material and feature a metal reinforcement as well as a loop for hanging. Most of the Charts are available in German, Latin, and English. Our two bestsellers, "The Human Musculature" and "The Human Skeleton," are also available in Latin/English, Latin/French, and Latin/Spanish.

Product Benefits

- ⊕ Available in two sizes:
50 x 70 cm or 70 x 100 cm
